## PROFILE

I am an enthusiastic Full Stack Developer and recent graduate of the multi-award winning iO Academy. After years of working as a dog trainer, I decided it was time to make the leap into an exciting new career and I cannot *wait* to get started. When I'm not coding, you'll find me out on training runs, cooking, scoping out new food spots and planning the interior design of my future home.

## PROJECTS

Here are just a couple of my projects. See my [\*\*portfolio\*\*](#) for more!

### FURNITURE STORE API

As a group of 3, we were tasked to create a furniture store API for an existing front end site. We used **SQL** and **Object Oriented Programming** in **PHP**. I worked on planning project architecture, displaying products, and pair-programmed on the unit conversions.
