EMMA FERRARI

PROFILE

I am an dedicated and enthusiastic Full Stack Developer and recent graduate of the multi-award winning iO Academy in Bath. I have a versatile background of retail, photography and animal training, all of which have honed my skills in communication, attention to detail and problem solving. With a keen interest in continuously developing my technical abilities, I'm eager to leverage my newly acquired coding skills and hands-on experience in a Software Development role.

PROJECTS

Here are just a couple of my projects. See my **portfolio** for more.

FURNITURE STORE API

As a group of three, we were tasked to create a furniture store API for an existing front end site. We used **SQL** and **Object Oriented Programming** in **PHP**. I worked on planning project architecture, displaying products, and pair-programmed on the unit conversions.

Github   *Live Version*

JAVASCRIPT GAME - FILM QUOTE QUIZ

As a group of six, we were provided with a json file containing a selection of movie quotes, their title and release date. Our task was to create a Film Quote Quiz using **JavaScript**, **HTML** and **CSS**, making the game fun, interactive and user-friendly.

FULL STACK TRACK

iO Academy   Jul-Oct 2024
During my time at iO Academy, I completed nine modules and developed several projects, both independently and as part of teams ranging from three to eight members. I have gained proficiency in a variety of technologies, including **GIT, HTML, CSS, PHP, JavaScript, Node.js, Slim, Express, Tailwind, and React.** I am proud of the significant growth I have achieved in just 16 weeks, transforming concepts that once seemed challenging into skills I can now competently apply.

OTHER PROFESSIONAL QUALIFICATIONS
